Report on Financial Statements

We have audited the accompanying financial statements of the business-type activities of the Nassau County Local Economic Assistance Corporation (the "Corporation"), a component unit of the County of Nassau, New York, as of and for the years ended December 31, 2015 and 2014, and the related notes to the financial statements, which collectively comprise the Corporation's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit includes performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Corporation's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Corporation's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities of the Corporation, as of December 31, 2015 and 2014, and the respective changes in financial position and cash flows thereof for the years then ended in conformity with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audits of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated April 1, 2016, on our consideration of the Corporation's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Corporation's internal control or on compliance. That report is an integral part of the audits performed in accordance with *Government Auditing Standards* in considering the Corporation's internal control over financial reporting and compliance and should be considered in assessing the results of our audits.

NASSAU COUNTY LOCAL ECONOMIC ASSISTANCE CORPORATION
MANAGEMENT'S DISCUSSION AND ANALYSIS
Years Ended December 31, 2015 and 2014

FINANCIAL ANALYSIS OF THE CORPORATION

One of the most important objectives of the financial analysis is to determine if the Corporation, as a whole, is better or worse off as a result of the year's activities. The statements of net position and the statements of revenues, expenses, and changes in net position provide useful information in this regard. The statements report the net position of the Corporation and the changes in net position. The amount of net position, the difference between total assets and liabilities, is a significant measure of the financial health or financial position of the Corporation. Over time, increases or decreases in the Corporation's net position are one indicator of whether its financial health is improving or deteriorating. However, other non-financial factors, such as changes in economic conditions, population growth, zoning and new or changed government legislation, should be considered in evaluating the financial condition of the Corporation.

The following comparative condensed financial statements and other selected information serve as the financial data and indicators for management's monitoring and planning.

The mission of the Corporation is to serve as a core resource for new and existing philanthropic and charitable organizations within the County of Nassau, New York, to support the growth, expansion and ongoing operations of non-profit organizations that allow the community to thrive.

- Federally tax-exempt and taxable revenue bonds or refinance of existing bonds
- Sales tax exemptions for construction materials and equipment
- Links organizations to applicable loans
- Explore expansion opportunities
- Connect organizations to workforce training
- Assist organizations with energy assistance

Reporting Entity

The financial reporting entity includes all functions and activities over which the appointed officials exercise responsibility. No other governmental organization has been included or excluded from the reporting entity. The County of Nassau appoints the governing board of the Corporation which results in interdependency with the County of Nassau. Accordingly, the Corporation has been determined to be a component unit of the County of Nassau.

Measurement Focus/Basis of Accounting

Measurement focus refers to what is being measured; basis of accounting refers to when revenues and expenditures are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurement made, regardless of the measurement focus applied.

The Corporation uses the economic resources measurement focus and the accrual basis of accounting. Revenue is recognized when earned and expenses are recognized when a liability is incurred or economic asset used, regardless of the timing of the related cash flows. Revenues, expenses, gains, losses, assets, deferred outflows of resources, liabilities and deferred inflows of resources resulting from exchange and exchange-like transactions are recognized when the exchange takes place. The financial statements of the Corporation have been prepared in conformity with accounting principles generally accepted in the United States, as prescribed by the Governmental Accounting Standards Board ("GASB"). GASB is the primary standard-setting body for establishing governmental accounting and financial reporting principles.

The financial statements include a statement of net position, a statement of revenues, expenses, and changes in net position, and a statement of cash flows.

Prepaid Expenses

Prepaid expenses represent Corporation expenses paid in advance, which generally consist of insurance.

Due to Affiliate

Due to affiliate represents amounts due to Nassau County Industrial Development Agency for office space and administrative services provided to the Corporation.

Equity Classification

In the financial statements, equity is classified as net position and displayed in three components, as applicable:

Net investment in capital assets - Consists of capital assets including, restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.

Restricted - Consists of net assets with constraints placed on the use either by (1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments; or (2) law through constitutional provisions or enabling legislation.

Unrestricted - All other net assets that do not meet the definition of "restricted" or "net investment in capital assets."

When both restricted and unrestricted resources are available for use, it is the Corporation's policy to use restricted resources first, then unrestricted resources as needed.

Advertising

The Corporation follows the policy of charging the costs of advertising to expense as incurred. Advertising expense for the years ended December 31, 2015 and 2014 totaled approximately \$6,000 and \$2,000 respectively.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Subsequent Events

Management has evaluated subsequent events through the date of the report, which is the date the financial statements were available to be issued.

The Corporation is authorized to use certificates of deposit and money market deposit accounts. INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED UPON THE AUDITS OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Board of Directors
Nassau County Local Economic Assistance Corporation
Mineola, New York

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the business-type activities of the Nassau County Local Economic Assistance Corporation (the "Corporation"), a component unit of the County of Nassau, New York, as of and for the years ended December 31, 2015 and 2014, and the related notes to the financial statements, which collectively comprise the Corporation's basic financial statements, and have issued our report thereon dated April 1, 2016.

Internal Control over Financial Reporting

In planning and performing our audit, we considered the Corporation's internal control over financial reporting (internal control) as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Corporation's internal control. Accordingly, we do not express an opinion on the effectiveness of the Corporation's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the Corporation's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audits we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Corporation's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audits, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Corporation's internal control or on compliance. This report is an integral part of the audit performed in accordance with *Government Auditing Standards* in considering the Corporation's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
